Subject: FW: [EXTERNAL] Your inquiry

Draft response:

Now that shelter in place lifted, would you please advise where the EPA bus is that was mentioned in press conference. We would like to take some video.

The TAGA is approximately in the San Jacinto Elementary School, Deer Park area.

Also, is there anyone from EPA in Deer Park we could interview?
We can provide a phone interview at 1pm.

Hi Carmen,

Checking to see if there is an update from the EPA today now that fire is out.
Thank you

Hi, Amy. Thank you for writing. Here is our current desk statement which should help with your question.

The U.S. Environmental Protection Agency (EPA) and Texas Commission on Environmental Quality (TCEQ) are working with Unified Command in response to a fire at the Intercontinental Terminals Corporation (ITC) Deer Park facility near Houston, TX. The Unified Command consists of EPA, TCEQ, U.S. Coast Guard (USCG), Harris County Pollution Control Services (HCPCS) and ITC. Emergency responders continue to use foam to control and prevent spreading of the fire. EPA has conducted, and continues to conduct, air monitoring with the Airborne Spectral Photometric Environmental Collection Technology aircraft (ASPECT) and has not measured any significant detections in the vicinity and downwind of the incident.
